

EVERY STUDENT SENT

Reversing the 70% college faith drop-off and multiplying leaders for America

Endorsements on Back

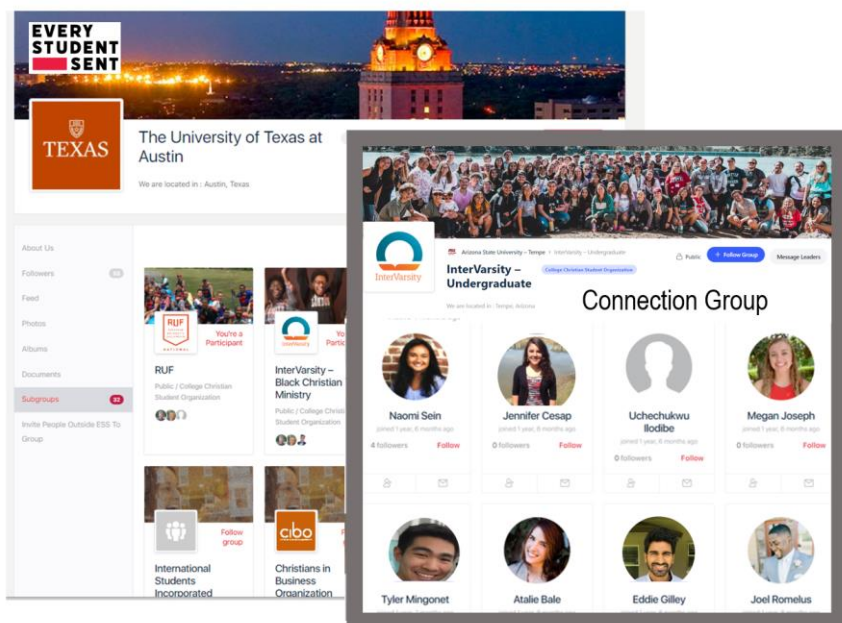

The Problem

Why this drop off? Research from the Navigators shows that the relationships made in the first 72 hours will shape a student's college experience and worldview for years to come. Starting alone doesn't work. We are losing laborers rather than launching them with power into the fruitful university harvest, then the marketplace spheres of influence. [See research.](#)

The Solution

Every Student Sent connects incoming freshmen many months in advance with a team of leaders, friends and roommates trained to make disciples in their dorms together. Missional communities for their academic departments train them to influence culture. Then we help them transition this experience to the workplace, multiplying the number of disciple-makers as workers, professionals, families, & voters. [See Solution.](#)

ESS is on nearly every US campus today and has assembled a national coalition of most major college ministries, youth ministries, school and church associations. See Page 2.
